

VOLUNTEER COMMITMENTS

To run our programs and to host successful races require a lot of volunteers in a variety of positions both on and off the course. Volunteering is a lot of fun and a great way to learn more about how racing works! Please note that certain on course volunteers are required to take an orientation to racing and volunteer position course prior to volunteering – this is known as a Level 1 Course. This course is required by Alberta Alpine in order to fulfill insurance requirements. Course times and dates will be posted in the fall, however; there are lots of other positions available.
